

Traverse Architects is a deliberately small, full-service architecture practice that focuses on custom residential projects throughout New England and beyond. Our team works collaboratively with clients, builders and consultants, and maintains that good communication is essential throughout the project. We specialize in simple, modern, sustainable designs that are rooted in regional craftsmanship.

Based in Cambridge, MA
Established in 2016

Job Description

We are seeking a self-motivated Project Architect/Designer to join our Cambridge-based practice. A strong sense of design history and theory is highly valued, as well as exceptional graphic skills, craftsmanship and technical detailing. The job role is to guide projects through all phases of work, from initial site analysis and conceptual design, through completion. The work is detail oriented and collaborative, yet provides plenty of design autonomy.

Requirements:

- Minimum of 5-years of experience in custom, high-quality residential practice
- Professional degree in Architecture (B.ARCH or M.ARCH)
- Licensed or actively working towards licensure preferred
- Proficiency in AutoCAD, SketchUp, Adobe Creative Suite
- Good communication skills are essential
- In-person, full-time at our office in Cambridge, MA

Salary commensurate with relevant experience.
